EXHIBITIONS

RECENT EVENTS is the title of an exhibition presently on show at the DRACOS ART CENTRE. Combining painting with sculptural and musical elements, this unique composite art show by LEDA PAPACONSTANTINO will run until February 26.

The paintings have a fairytale quality, with motifs of a fox, a heart and an arrow. In the artist's own words, "the fox, a light and elegant shape, contrasts with the surrounding space where violence explodes in colour and texture; while 3-dimensional hearts and arrows — signifying Eros — direct the spectator physically and emotionally through the show. The central piece of work consists of a hanging metal box, pierced by an arrow, red hot from the sun."

Within it, a linear boat burns, depicting tales of privacy, aggression, beauty, contradiction — the journey of the maimed heart, stating the journey itself as its aim". Leda Papaconstantinou has studied Fine Arts in both Greece and England, and until recently, the major part of her work has been in the area of environmental structures and performance.

She has exhibited extensively in Greece and abroad, and her work can be viewed at the Dracos Art Centre, 2 Irodotou Street, Kolonaki, Tel: 721-7103, Tuesdays to Fridays 10-2, 6-9, Saturdays 10-2 and Mondays 6-9.
